***Claim Rejections - 35 USC § 112***

Claims 3-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The fabric shower curtain is claimed as being coated with a "first waterproof layer and a second waterproof layer and that "moisture activated designs" are located "in" the layer(s). First, the layers are disclosed as being "preset" with these designs. This is not the same as having the designs "in" the respective layer. Secondly, the disclosure does not tell us what the structure is of these designs. The recitation that the layer has a design is not supported by the disclosure and furthermore does not recite any structure. It is unclear as to what actually constitutes the invention and the structure used to define the invention. It is not possible from the disclosure to make the device.

***Claim Rejections - 35 USC § 103***

Claims 3-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gainer in view of Neer.

Gainer discloses a fabric panel 22 with a "coating" panel 24 which has cutouts 25, the coating panel being attached to fabric panel 22 via heat activated adhesive. It would have been obvious to modify Neer whereby he has a coating panel 24 adhered to the opposite side as well. Providing rings for attachment to a rod is taught by Neer and it would have been obvious to modify Gainer to be a curtain type shade in view of this teaching. These claims are addressed as best understood.

***Response to Arguments***

Applicant's arguments have been fully considered but they are not persuasive. The remarks constitute repetition of the claims with no real discussion about the references applied. The 112(1) rejection has not been discussed.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
